CONSUMPTION

One consumption unit is 100 cubic feet, or 748 gallons. Below are the water and sewer costs per consumption unit (con). In sewer, the first 4 consumption units are free.

Water	Sewer
\$2.78 per con	\$3.55 per con (first 4 cons are free)

Why is my bill increasing?

Your water and sewer rates will increase so we can provide dependable, high-quality services to our customers. Portions of the approved budget have been earmarked to address water clarity: including the purchase of new flushing equipment, replacing water lines, and adding two new filter tanks. With the increase in water and sewer fees, Junction City Public Works will rehabilitate and modernize infrastructure to further our system reliability and to meet the needs of the Community.

The new rates are a 6.5% increase from last fiscal year's rates for water and a 5% increase for sewer.
