[REDACTED]
Junction City, OR 97448

March 15, 2021

Ref: File # A-20-37/RZ-20-37, 75 Chick Ln

In reference to the above file # requesting annexation into the City of Junction City, we have no objections and welcome the applicants to the neighborhood. We only ask for one clarification for the record. We have some maple trees near our northwest property line which the applicants have asked for permission to remove. These trees will truly be a nuisance to the applicants, and we have no issue with them being removed. The applicants have agreed to do this at their own expense, and we are in agreement with that providing that the stumps are pulled, and the ground is compacted to allow for new fencing to be installed.

We have spoken to the applicants several times and feel confident that the planned usage for this property will be an asset to adjoining neighbors and the City as well. We encourage the Planning Commission to approve this application.

Respectfully,

Robert G. Biswell
