

# Junction City Residential Fence Standards

Junction City Municipal Code (JCMC) 17.95.020

- ❖ Maximum Fence/Wall Height for rear & interior side yard setbacks: 7 feet (includes extensions).
- ❖ Maximum Fence Height: Front yard setbacks: 3½ ft from street centerline grade
- ❖ Fences shall not interfere with vision clearance requirements (Vision Clearance Diagram below)
- ❖ Fences in/abutting residential zones shall be constructed of materials used & manufactured as residential fence material (i.e. wood, block, brick, chain link, framed hex netting). Broken boards, tarps or similar covering secured to fences are not permitted. Field wire fences (chicken wire) shall not be used as perimeter fencing in residential zones. Barbed wire is *not* permitted in residential zones.
