Attachment to the application for 17.20.120 Townhome (single-family attached/rowhouses) supplemental standards.

- (1) Exceptional or extraordinary conditions apply to the property that do not apply generally to other properties in the same zone or vicinity, which conditions are a result of the lot size, topography or other circumstances over which the applicant has no control

I am applying for a variance to partition an existing lot at 12th and Juniper that was zoned by the city of Junction City as a commercial lot that allows for a townhouse to be built. When I had the lot surveyed the surveyor discovered that all of the lots in that block between 11th and 12th are 6 inches less in width (49ft 6in) and 3inches less in length (99ft 9inches. The lot we are talking about is lot 2 of the original plat of J.C. Platted in 1872. The city requires 25x100 or 2500 sq ft our lot would be 24.6 x 99.9 which is 2487.51. which is less than 10%.

- (2) The variance is necessary for the preservation of a property right of the applicant substantially the same as is possessed by owners of other property in the same zone or vicinity.

This variance is being treated as a major variance and yet the single lot is 2487.51 which is less than the 10% for a minor variance and combined the total sq footage is 4975.02 sq ft which is still less than 10% for a minor variance. When I bought the said property it was advertised as a 50 x 100 ft lot, I did not find out that it was not until I had it surveyed this is the reason I am requesting the variance. I believe that the proposal complies with 17.140.030 authorization to grant a variance.

- (3) The authorization of the variance shall not be materially detrimental to the purpose of this municipal code, be injurious to the property in the zone or vicinity in which the property is located, or be otherwise detrimental to the objectives of any development pattern or policy.

The lot is zoned for townhouse use, I have had a set of plans drawn that I am enclosing that I believe fits the design and criteria to the design of the homes in the area, I tried to make it look as though it were an older building. I know I will need to feel out a development review application for approval per municipal code 17.160.050 and at that time will deal with any changes that need to be made. The plans I have submitted meet the required setbacks and the extra parking that is required. I will comply with 17.20.120 townhome (single-family attached)

supplemental standards.

- (4) It is impractical to maintain the zoning ordinance requirements and , at the same time, build, erect or use the structure as desired.

I believe that this proposal for a variance complies with 17.140.030 authorization to grant a variance, The lot sizes are established by the original plat of Junction City subdivisions in 1872 and I am unable to change these lot dimensions. Without this variance I would be unable to build the town houses.

I have also included a letter explaining my misunderstanding of the original approval of this variance. If you need anything else please let me no. Thank you for your understanding.

CELL (541) [REDACTED]

e-mail [REDACTED]

To the city of Junction City,

This letter is in response to the letter I received from the planning department file #MP-13-03/VAR-13-04

(item) #3 on proposed public improvements: PP@L will bring power to the site under ground across the alley to the garages, water meter will be located in the front of the site on Juniper st. I have talked to Jason from public works, his letter is inclosed, on asphaltting the alley, Jason said public works plans on replacing the sewer line in the alley and they would asphalt at that time and I would pay the city back for my part. Power and water would be installed after the foundation is poured, which would be the first thing we do after getting the permit.

(item) #6 a. there is no home owners association because of the age of the sub-division, as far as maintenance my wife and I plan on owning the proposed townhouse and renting it out ourselves for retirement income. I will do all repairs and maintenance myself.

Thank you

Thu, Nov 29, 2012 at 9:07 PM

Jason,
Did you ever get a letter to Sandy, at the city, I want to go forward and need your information, or a letter stating that you would like to wait on the paving of the alley until this spring, if you could forward the letter to me I would appreciate it.
Thank you
John

<c...@...ill.com>, JC Planning <JCPlanning@ci.junction-city.or.us>

Hi Stacy,

I just wanted to let you know that I had a conversation with Mr. Moody about his proposed project. I realize that paving a part of the alley would be a requirement of his project. With the current sewer projects that are planned for this summer, we will be replacing the sewer line in that alley.

With that said, if you are ok with it, I would like to use an approach that we have used in the past where the City will pave the alley and Mr. Moody would reimburse the City for his portion of the project.

Hopefully this makes sense. If you have any questions, please do not hesitate to ask.

Thanks

Jason Knope

Hi Jason,

Thanks - I think that makes a lot of sense. When the application comes in again (unfortunately the partition approval expired) I will figure out a way to write that in and have you look at the language to make sure you are comfortable. Thanks again,

1/1/12

FW: Moody lot 13/Juniper

Carl Perry <carl@jcfire.org> Thu, Nov 1, 2012 at 10:05 AM
To: CLAUSON Stacy A <SCLAUSON@lcog.org>, JC Planning <JCPlanning@ci.junction-city.or.us>

Stacy,

This is the email I sent to Kay Bork concerning John Moody's lot at 13th and Juniper.

Carl

From: Carl Perry [mailto:carl@jcfire.org]
Sent: Thursday, September 23, 2010 3:29 PM
To: 'Kay Bork'
Subject: Moody lot 13/Juniper

Kay,

As per our conversation I looked at the site at 13 and Juniper where John Moody is proposing to build a "Town House". Due to the location of two (2) nearby hydrants I don't feel it is necessary to require the builder to provide a new hydrant. In addition I also do not think it is necessary to require the building(s) to be sprinkled.

Thank you,

Carl Perry
